EDUCATION

• Bachelor of Technology (B.Tech) in Computer Science and Engineering	2024-2028
Vallurupalli Nageswara Rao Vignana Jyothi Institute of Engineering and Technology	CGPA: 8.98
• Intermediate	2022-2024
Srichaitanya Junior College	Percentage: 97.2
• School	2022
DAV Public School	Percentage: 93.8

TECHNICAL SKILLS AND INTERESTS

Programming Languages: Java, C++, C, JavaScript, SQL

Web Technologies: HTML, CSS, React, Node.js, REST APIs

DBMS: MySQL (Relational Database), MongoDB

Tools and Platforms: Git, GitHub, VS Code, Vercel, Jupyter Notebook, Google Colab

Computer Science Fundamentals: Data Structures Algorithms, Object-Oriented Programming (OOP), Software Engineering, SDLC, Problem Solving, Agile Development

Soft Skills: Leadership, Collaboration, Communication, Adaptability, Teamwork

PROJECTS

Outpass Management System | React.js, Node.js, Express.js, TypeScript, Prisma [\[Link \]](#)

- Developed a full-stack Outpass Management System with role-based authentication, REST APIs, and automated approval workflows for multiple user roles.
- Implemented QR-based verification, parent SMS notifications, and secure database operations to streamline request management and campus security.
- Built scalable backend services using Prisma and Git following software engineering best practices.

Disaster Preparedness Web Application | HTML, CSS, JavaScript, Node.js [\[Link \]](#)

- Developed a full-stack web application delivering interactive disaster preparedness modules through a responsive user interface.
- Built RESTful APIs and backend services to manage quizzes, learning content, and user interactions efficiently.
- Utilized Git, modular development, and problem-solving to build a scalable and maintainable application.

Campus Connect Platform | Node.js, MongoDB, JavaScript, HTML, CSS [\[Link \]](#)

- Developed a web platform enabling students to connect, create teams, and collaborate on projects and hackathons.
- Designed backend services and database operations using Node.js, MongoDB, and REST APIs for efficient user and team management.
- Applied database design, Git-based version control, and software engineering principles to deliver a reliable and maintainable solution.

POSITIONS OF RESPONSIBILITY

- Volunteer of the **Computer Society of India** (CSI VNRVJIET) 2026-Present.
- Member of the **Indian Society of Technical Education** (ISTE VNRVJIET) 2025-Present
- Speaker, CSI VNRVJIET Orientation 2026
- **Designing and Event Management Member** at CSI VNRVJIET

ACHIEVEMENTS

- Shortlisted in Smart India Hackathon (Internal Round) among 300+ teams for developing an innovative technology solution.
- Finalist – Toastmasters Speech Competition, demonstrating strong communication and public speaking skills. [\[Link\]](#)
- Finalist – Webathon Hackathon, showcasing web development and problem-solving abilities.

EXPERIENCE

Software Engineering Intern | VJ Startups

- Developed full-stack web applications using React.js, Node.js, and TypeScript.
- Implemented REST APIs, backend services, and database operations.
- Collaborated using Git to deliver scalable software solutions.
